Then visit **Blue Mosque**, built in early 17th century and know as Blue Mosque because of its magnificent interior decoration with blue Iznik tiles. It is also unique in the world to have 6 minarets.

Continue to **St. Sophia Museum**, built by Emperor Constantius in 360 AD. St. Sophia was for many centuries the world's largest church and today is the fourth largest one after St. Paul's in London, St. Peter's in Rome and Duomo in Milan.

Throughout its Byzantine history, St. Sophia served as the cathedral of the city where emperors were crowned and victories celebrated.

After his conquest of the city in 1453, Sultan Mehmet II ordered for the building to be converted into a mosque by the addition of Islamic elements such as a mihrab, a mimber, minarets etc.

After having served this time as a mosque for 481 years, the building became a museum in 1934 by the order of Ataturk, the founder of the Republic of Turkey.

After lunch visit **Topkapi Palace**, built by Sultan Mehmet II after the conquest of Istanbul in 15th century. The palace housed the sultans and their exotic entourage until mid 19th century. The complex is a group of structures which incorporates works from successive periods of Ottoman reign. Today the museum displays priceless collections of the imperial treasury, numerous pieces of Chinese porcelain, traditional costumes of the sultans and their families and special section for the preservation of the relics of Prophet Mohammed.

Last stop will be at famous historical **Grand Bazaar**, the largest "souk" covered oriental shopping mall in the world, where you will find 4,400 shops under one roof where each trade has its own street. Then, board a **private boat for the cruise along the Bosphorus**, a narrow strait between the continents

of Europe and Asia connecting Black Sea in the north to the Sea of Marmara in the South. In the Byzantine and early Ottoman days, there was little settlement on either sides of the Bosphorus but as of the 18th century, it became a favorite place for the sultans and their entourage where they built their kiosks and waterside residence.

Meet with your guide at the lobby and drive to the Asian Side of Istanbul via transcontinental **Bosphorus Bridge**, unique in the world connecting two continents Asia and Europe. The bridge was built in 1973, the 50th anniversary of the Republic of Turkey. It's length is 1.560 m (1,074 m over the sea) and height from the sea is 64 m. It is the fourth longest suspension bridge in the world.

Visit **Beylebeyi Palace**, situated on the shore at the Asian end of the Bosphorus Bridge and built between 1861 and 1864 by Sultan Abdulaziz. The palace is a three-story structure set on terraced grounds planted with trees brought from the entire world. The interior was decorated in a style typical of the 19th century – Europe and the original furniture is still in display. The building itself, constructed in the French Baroque style, is made of stone and marble. It was used by the Ottoman sultans as a summer residence.
